Bilal Zakaria Al-Khawaja

Operations & Development Manager | Developer of QB business software

Mobile & WhatsApp: +966 53 838 1612 | Website: https://0-bilal.github.io/bilal.CV/en/
Date of birth: 21 July 2001 | Nationality: Syrian | Work regions: Riyadh, Makkah, Wadi Al-Dawasir, Al-Dawadmi, Al-Muzahmiyya (Saudi Arabia)

PROFESSIONAL SUMMARY

Working in restaurants and retail since 2015, I rose from entry-level worker to Operations & Development Manager. Experienced in branch management and daily operations, purchasing and cost control, staff training and team leadership, and customer service. I find where workflows break down and design better ways to run them, often turning those solutions into software under the QB brand.

WORK EXPERIENCE

Operations & Development Manager — Juice Time (Badr Al-Wuhaib Ice Cream Est.)
Aug 2020 – Apr 2025

- Career path: Worker, Preparation staff, Cashier, Branch manager, Two-branch manager, then Operations & Development Manager.
- Responsible for all aspects of the company's operations: branch operations, purchasing and training, and contributing to the accounting department.
- Improved purchasing efficiency by 40%, reduced raw-material waste by 25% and raised customer satisfaction by 75% (as stated in the experience certificate).
- Trained 15 employees.
- Redesigned preparation and branch processes to speed up service and increase capacity.
- Managed the call center, produced the brand's designs and helped source new suppliers.

Receptionist, Cashier & Preparation — Frooz (ice cream shop)
2019 – 2020

- Welcomed and served customers on the shop floor.
- Handled sales and payments at the point of sale.
- Prepared ice cream products to the shop's standards.

Other work in restaurants, bakeries and more
Since 2015

- Shahba Al-Sham Grills, Beta Pastry Bakery, Duo Burger, Emdad Auto, Al-Mukramoon Domestic Pilgrims Services, and construction work.

SOFTWARE PROJECTS (QB SOFTWARE)

- QB-Sentinel: mobile app that replaces daily paper records in branches (attendance, inspection and cleaning logs, end-of-day reports).
- QB-Prax: digital kitchen display that reads Foodics receipts automatically (Python, SQLite, OCR).
- QB-FLOW: one platform for management, call center, customers, menu and reception (PHP, SQL, Docker).
- QB-Ledg: records cash advances and settles them with print-ready reports.
- QB-Dine: digital menu, cashier screen and admin dashboard for restaurants (PWA).
- QB-Nexa: car-finance deal profit calculator, used in a real car showroom.

- 22 software projects in total across operations, finance, management and tools.

SKILLS

- Management & operations: branch management, daily operations, process improvement for stores and restaurants, capacity growth, purchasing, cost control, staff training, team leadership, problem solving.
- Sales & customers: customer service, effective communication, point of sale and payments, sales and marketing, financial accounting basics.
- Software & tools: Microsoft Excel, Microsoft Word, Google Workspace (Sheets, Docs, Forms, Drive), Google Cloud, Google Ads, Google Business Profile, Google Maps, Meta Business Suite, Facebook, Instagram, WhatsApp Business, Foodics, Figma, Canva, GitHub, VS Code.

TRAINING & CERTIFICATES

- Experience certificate, Badr Al-Wuhaib Ice Cream Est. (Juice Time), 2025.
- 16 online courses (79 hours), Doroob – Human Resources Development Fund (HRDF), 2020: financial accounting principles, retail and store operations, point of sale, customer service, information security, photography and photo editing.
